Sarjina Shaikh

Frontend Developer • React.js • JavaScript & UI Development

8097124007 shaikhsarjina083@gmail.com sarjina-shaikh

PROFILE SUMMARY

Frontend Developer skilled in building responsive, interactive, and visually engaging web applications with React.js, JavaScript (ES6+), HTML5, and CSS3. Adept at component-driven UI development, API integration, and crafting clean, intuitive interfaces with Tailwind CSS and Bootstrap. Strong computer science foundation with a keen eye for detail, cross-device responsiveness, and modern UI/UX principles. Eager to begin a career as a Frontend Developer and contribute to a team building engaging, user-first web experiences.

PROJECTS

Hotel Sunset Oasis / *HTML5 • CSS3 • JavaScript • ScrollReveal.js* *2026*

- Designed and developed a **fully responsive luxury hotel website** with dedicated Home, Rooms, Features, Food Menu, and Contact sections, structured around a clear visual hierarchy.
- Built an **interactive booking form** allowing users to select check-in/check-out dates, number of guests, and room type using vanilla JavaScript for real-time validation and updates.
- Designed a **scrollable Food Menu page** featuring hover effects, engaging CSS grid layouts, and an auto-playing promotional video to enhance visual appeal.
- Integrated **ScrollReveal.js animations** to create smooth, staggered content transitions as users scroll through each section, improving overall engagement.
- Applied **mobile-first responsive design** and cross-browser testing to ensure a consistent, seamless user experience across desktop, tablet, and mobile devices.

Finance UI Dashboard / *React.js • CSS3 • JavaScript* *2026*

- Designed and developed a **clean, professional finance dashboard UI** with a structured layout for displaying financial metrics in an intuitive, visually clear format.
- Built with **React.js**, using reusable components to structure dashboard widgets, metric cards, and data panels for a maintainable codebase.
- Implemented **responsive design and cross-browser compatibility**, deployed on Vercel with reliable performance across all screen sizes and browsers.

ConversAI Chatbot / *React.js • Tailwind CSS* *2025*

- Built a **responsive, visually engaging chat interface** using React.js and Tailwind CSS, ensuring smooth interactions and consistent styling across devices.
- Developed **reusable, modular React components** for the chat window, message bubbles, and input controls to keep the codebase clean and maintainable.
- Managed UI state for message history, enabling a persistent **conversation history view** within a single session.
- Implemented a **typing indicator and smooth scroll behavior** to give users clear, real-time feedback during conversation flow.

SKILLS

Languages: HTML5, CSS3, JavaScript (ES6+)

Frontend: React.js, Tailwind CSS, Bootstrap, Responsive Web Design, Component-Driven Architecture

UI & Integration: API Integration, Cross-Browser Compatibility, Mobile-First Design, UI/UX Principles

Soft Skills: Problem Solving, Attention to Detail, Team Collaboration, Communication, Adaptability

EDUCATION

Rizvi College of Engineering | *B.E. in Computer Science* *Mumbai, India • 2022 – 2026*

RD National College | *HSC Science* *Mumbai, India • 2022*

Purushottam High School | *SSC* *Mumbai, India • 2020*

CERTIFICATIONS

- **AWS Academy Cloud Foundations** *(AWS Academy)* — Cloud concepts, AWS services, security, architecture, pricing, and support.
- **Solutions Architecture Job Simulation** *(Forage & Amazon Web Services)* — Hands-on experience designing a simple, scalable hosting architecture.
- **Career Essentials in Software Development** *(LinkedIn Learning & Microsoft)* — Programming fundamentals, software development principles, and industry best practices.
- **Cybersecurity Certification** *(Rizvi College of Engineering)* — Network security, threat awareness, and protective measures.
